

## DVD ORDER FORM

### Healthy Living for Younger Children 4-7 years

This compilation will help younger children identify and understand the role of the five senses. They will also learn about what to eat to stay healthy and how to keep fit, safe and well.

- Developing a healthy, safer lifestyle (KS1 Framework for PSHE, Section 3)
- Promotes eating for health (QCA Schemes of Work for Science, Unit 3A)
- The role of the five senses (QCA Schemes of Work for Science, Unit 1A)

### Life Processes and Habitats 5-7 years

A compelling introduction to the subject of plants and their habitats that uses photographic techniques to their best advantage. The third series on this compilation examines how nature has inspired many great inventions.

- Recognising and naming the parts of plants
- The need for light and water so that plants may grow
- How flowering plants sprout from seeds
- The seasons in a range of habitats
- The life processes of animals and plants found in the local environment
- Technologies based on science
- How technological developments have contributed to the quality of life of many people
