

DVD ORDER FORM

Tectonics and Climate 11-16 years

Using case studies from around the world, this compilation investigates natural hazards and disasters, and human responses to them. It also considers the interaction between people and the environment as a contributory factor to their occurrence and intensity.

Parenting Education 14-19 years

A valuable resource for teachers who want to introduce students to the reality of parenthood. **Parenting Stories** uses real-life documentaries and a drama to convey the emotions and challenges involved in dealing with pregnancy and coping with growing children.

In **Borrow a Baby**, three teenagers are given a real baby to look after while the anxious parents look on via CCTV monitors. A gripping, funny and moving documentary which shows teenagers that the reality of having a baby is far more complex than it may seem.
